Half Nelson Courtship (2011) Rune Grammofon

"Half Nelson Courtship" is the third album and the first on Rune Grammofon from this young trio who musically started out as the younger cousins of Supersilent. The new album shows a group with a stronger identity, clearer focus, more mature and fully developed musical ideas and directions. It's actually not so easy to compare them to anyone, but certain aspects of the 1973 period King Crimson

concert improvisations wouldn't be too far off the mark. But Puma is first and foremost a contemporary and progressive unit making their own path on the ever growing Norwegian experimental scene mixing improvisation, jazz, electronics and free rock.

Puma is Øystein Moen (synthesizers and electronics), Stian Westerhus (guitar and electronics) and Gard Nilssen (drums). Recorded and mixed by Jørgen Træen.

Line Up

Øystein Moen (synthesizers and electronics) | Stian Westerhus (guitar and electronics) | Gard Nilssen (drums)
